FEATURES		
Decompression computer		✓
Open Circuit		✓
Trimix / Nitrox / Air compatible		✓
Bühlmann GF		✓
Gauge mode		✓
Freediving mode		✓
Bluetooth® Wireless Technology		✓
Upgradeable firmware		✓
Vibration motor alerts		✓
3 axis, tilt compensated, digital compass *Tern TX model only		✓
Air integrated *Tern TX model only		✓
Number of transmitters (optional)		Up to 4

SPECIFICATIONS	
Screen resolution	350 x 350
Display type	Full colour AMOLED
Display size	3.30cm / 1.3"
Lens material	Toughened glass window
Screen brightness	Minimum 300 nits, Typical at 350 nits
Size (Dive computer)	Diameter - 50mm
	Thickness - 16mm
Weight (Dive computer)	100g
Battery type	Wireless Rechargeable Li-Ion
Battery life (AI enabled)	up to 20 hours (Medium Brightness)
	up to 6 months (Standby)
Number of gases	3 OC
Depth rating	120m / 394ft
Dive log capacity	up to 500 Hours

SWIFT TRANSMITTER SPECIFICATIONS	
Battery type (user replaceable)	CR2 3V
Battery life (HP pressure present)	up to 300 dive hours
Depth limit	200msw
Rated air pressure	300bar / 4350psi

OPTIONAL ADD-ONS	
Remora™ quick connect band	5 colours
Remora™ webbing straps (for drysuit)	3 colours
SWIFT smart AI transmitter	✓

DESIGNED & BUILT IN CANADA

TERN

Our most compact dive computer with brilliant AMOLED display

The Shearwater Tern and Tern TX models redefine diving convenience and versatility for sport divers. Incorporating a compact design with advanced features, these dive computers, especially the Tern TX with its transmitter-enabled capability, provide unparalleled functionality. Their enhanced visibility, user-friendly interface, and compatibility with multiple diving modes, make them an essential tool for divers seeking reliability and ease of use.

The Tern and Tern TX feature a 1.3" AMOLED screen with clear visibility in various lighting conditions. Their watch-style design and high-resolution display ensure easy access to vital diving data.

The Tern TX stands out with its ability to connect to up to four Swift transmitters and includes a digital compass. Both models support Air, Nitrox, 3 Gas Nitrox, Gauge, and Freedive modes.

Designed and Built in Canada and depth-rated to 120 meters, these computers meet EN standards for dive compliance. They come with Shearwater's new Remora™ quick connect bands and webbing straps, offering easy customization with various strap lengths and colors.
